

ANKER Universal Cash Drawer

Unique functionality at the Point of Service

The Universal Cash Drawer (UCD) is established worldwide in all areas of retail and hospitality. It is user-friendly, versatile, robust and stable – even in demanding environments like self-service.

The UCD cash drawer is light yet robust and offers a great deal of space despite compact dimensions. The removable and foldable coin insert improves handling, minimises the time drawer contents are visible to third parties, simplifies transport and takes up little space when stored in a safe. The coin and note compartments can be flexibly arranged and thus accommodate international currencies

Key benefits of the Universal Cash Drawer:

- Compatible with all POS systems
- Exchangeable release technology
- Flexible arrangement of coin and note compartments
- Takes up little space when stored in a safe
- High-quality guides guarantee a long service life
- High-quality lock with up to 50 combinations

Flexible coin and note compartments, increased security during transport, space-saving storage

High security due to lockable cash drawer and lockable coin insert

The cash drawer is electronically opened by the POS system. The cassette is equipped with a high-quality lock that can also be opened manually using a key. The lock ships with 50 different lock combinations. An optional plug lock is offered for additional security. The opening status of the cash drawer is determined and transferred to the POS system via a switch built into the release mechanism.

The foldable coin insert is easily removed. Users can close and lock the box for secure and comfortable transportation. No additional cover plate is required. The coin insert is locked during transport and is not visible to third parties. Due to

the compact dimensions of the folded coin insert, it requires very little space when stored in a safe.

Flexible interior – Coin, note and receipt compartments

The inside of the drawer can be arranged as needed, making it possible to adapt it for use with any currency. The standard configuration has four note and eight coin compartments. If required, two coin compartments can be turned into a fifth compartment for notes. The remaining six coin compartments can be expanded to eight once again by inserting two additional separators. The remaining six coin compartments can be expanded to eight once again by inserting two additional separators

Compatible with all common POS systems

The UCD can be used with all major POS systems

The UCD features a wide receipt drop-in slit at the front. There is a removable release mechanism on the rear. This allows for secure insertion of receipts without the need for simple adaptation to different systems. When the need to open the cash drawer system is changed, all that needs to be replaced is the release.

Optional accessories

- Additional security plug lock (2000 combinations)
- Coin counting insert (Inkiess)
- Coin sorting tray (weighable)
- External note holder
